

THE NODE.JS HANDBOOK

FLAVIO COPES

Table of Contents

The Node.js Handbook

Introduction

[Introduction to Node](#)

[A brief history of Node](#)

[How to install Node](#)

[How much JavaScript do you need to know to use Node?](#)

[Differences between Node and the Browser](#)

[v8](#)

Basics

[Run Node.js scripts from the command line](#)

[How to exit from a Node.js program](#)

[How to read environment variables](#)

[Node hosting options](#)

Command Line

[Use the Node REPL](#)

[Pass arguments from the command line](#)

[Output to the command line](#)

[Accept input from the command line](#)

Node modules and npm

[Expose functionality from a Node file using exports](#)

[npm](#)

[Where does npm install the packages](#)

[How to use or execute a package installed using npm](#)

[The package.json file](#)

[The package-lock.json file](#)

[Find the installed version of an npm package](#)

[How to install an older version of an npm package](#)

[How to update all the Node dependencies to their latest version](#)

[Semantic versioning rules](#)

[Uninstalling npm packages](#)

[Global or local packages](#)

[npm dependencies and devDependencies](#)

[npx](#)

Working with the event loop

[The event loop](#)

[nextTick](#)

[setImmediate](#)

[Timers](#)

Asynchronous programming

[Callbacks](#)

[Promises](#)

[async/await](#)

[The Node Event Emitter](#)

Networking

[HTTP](#)

[How HTTP Requests work](#)

[Build an HTTP server](#)

[Making HTTP requests](#)

[Axios](#)

[Websockets](#)

[HTTPS, secure connections](#)

File System

[File descriptors](#)

[File stats](#)

[File paths](#)

[Reading files](#)

[Writing files](#)

[Working with folders](#)

Some essential core modules

[The fs module](#)

[The path module](#)

[The os module](#)

[The events module](#)
